JURISDICTIONAL THREAT AND HAZARD IDENTIFICATION AND RISK ASSESSMENT

MGT-310

This course will prepare participants to conduct a Jurisdictional Threat and Hazard Identification and Risk Assessment (THIRA). Participants will identify threats and hazards of jurisdictional concern, give those threats and hazards context, establish capability targets, and determine how to apply the THIRA results.

By using the THIRA process, stakeholders will develop a strategy to allocate resources and establish mitigation and preparedness activities. THIRA-informed planning is consistent with and expands on nationally accepted emergency management standards as the basis for planning across the mission areas of prevention, protection, mitigation, response, and recovery.

Individuals completing this course, in combination with AWR-213, MGT-315, and MGT-414, are awarded the TEEX Infrastructure Protection Certificate.

Topics

- THIRA Overview
- Threat and Hazard Identification
- Contextualize Threat and Hazards
- Establish Capability Targets
- Application of THIRA Results
- THIRA Toolkit
- Role of THIRA in National Preparedness

Prerequisites

FEMA / SID Number

Students must register and bring a copy of their SID number to class. Register online:

cdp.dhs.gov/femasid

Recommendations

- MGT-315 Critical Asset Risk Management
- AWR-213 Critical Infrastructure Awareness
- MGT-414 Advanced Critical Infrastructure Protection
